

Part of the **award winning** product suite from Silverback Learning Solutions includes **edifyAssess**; a secure, integrated online formative assessment platform managing all aspects of assessment needs.

Comprehensive

Create a comprehensive assessment plan for all stakeholders including students, teachers, principals, and administrators with an easy, online, educator-relevant platform. Its scalability and security make it the ideal solution for day-to-day formative classroom assessments as well as for large-scale district-wide testing.

Assessment Libraries

Create valid assessments in under a minute. Access to over 200,000 items including a suite of technology enhanced item types like multi select, drag and drop, and evidence based selected response, etc. Delivery and longitudinal storage is a snap! Districts can utilize their current item banks and hundreds of pre-built assessment templates from the KDS Inspect item bank!

Effective & User Friendly

From item creation to assessment administration, edifyAssess is valid and reliable. Sophisticated data analytics of student responses to assessments generated from custom item banks and aligned to district selected standards; edifyAssess addresses multiple reading levels, can provide scaffolded entry points for differentiated learners, and target the appropriate Depths Of Knowledge (DOK) levels.

Graphical Data Analysis

Pre-built set of highly visual and interactive reports that have been developed from an educator's perspective. Measure achievement gaps within and across schools with powerful tools that allow data to be disaggregated in a variety of ways. Utilize data at your fingertips to group students into interventions that target the appropriate remediation.

Other Key Features Included with our Partnership:

- **Next Generation Science**
- **State Aligned Social Studies** for CA, TX, FL, and GA
- **Pre-built Interim Formative Assessments** easily modified to align to your district's pacing
- **Pre-built End-of-Year Practice Assessment** prepare students and teachers for high-stakes testing
- **Detailed Distractor Rationales and Rubrics** arm teachers with specific data for quick, targeted feedback
- **Classroom Checkpoint Assessments** save teachers time with ready-to-use mini-assessments

edify_{assess} + mileposts = Total Solution

The combination of edifyAssess and Mileposts affords districts the opportunity to implement an overall personalized learning and assessment plan including benchmark, common, and progress monitoring assessments; accompanied by strong analytics, digital resources, and longitudinal data reporting.

- Create** a comprehensive assessment plan for all stakeholders
